Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I only use my phone for emergencies and I think it is ridiculous that you want to raise my fees. This is why I use Tracfone and not a different cell phone company. Their rates are cheap and I can use the phone when I need it. You are insuring that everyone that only uses their phone for emergencies will be left unsafe. I will probably stop using Tracfone altogether if their rates go up, so you are risking my safety and Tracfone's business.

Please give this fair consideration.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
